❖ Main application & Characteristics:

Moplen HP300R is a high flow polypropylene homo-polymer for injection moulding & compounding applications.

Moplen HP300R exhibits a high stiffness & outstanding process ability for shorter cycle times & easy mould filling.

The product is suitable for injection moulding applications such as thin-walled containers & other general purpose packaging items, toys, vacuum flasks, household & kitchen articles.

Moplen HP300R is also an excellent polymer base compounding & master batches.

* Moplen HP300R is suitable for food contact.
